# MOMENTO ISOLATED POWER ADAPTERS

SAFETY AND  
PROTECTION  
@ WORK

Momento ePROOF SYSTEM Insulated/Isolated Adapters provide protection against electrostatic discharge up to 1000V, reducing risks associated with high currents, live components, short-circuits, and grounding with tools.

All our ePROOF SYSTEM adapters have been tested for your safety. With Momento you can work with confidence, knowing that our isolated power adapters are designed to protect you from electrical shock hazards. Our commitment to safety is unwavering, and our products are engineered to meet the most stringent industry standards. From electrical engineers to technicians, our power adapters are trusted by professionals worldwide.

  
1000V  
IEC 60900:2004  
TESTED AND CERTIFIED  
ACCORDING TO APPLICABLE  
CLAUSES IN SS-EN IEC 60900

The tools have a composite shell to delete all electric conductivity. The isolated power adapter can be combined with the Silverline™ cover sockets, and the gap cover for a fully integrated system by free-rotating sleeves.

# SAFETY

Each individual adapter is tested in-house and comes with a signed certificate.

By combining our isolated adapters with our silverline impact socket, you can ensure that you have the protection you need to work safely and effectively.

ADAPTER	SQUARE	d (mm)	D (mm)	L (mm)	L1 (mm)	Nm
SI00	1/4"	16	19	39	30	30
SI11	3/8"	22	24	45	32	110
SI44	1/2"	30	30	55	37	220

GAP COVER	A/F	D (mm)
GCSI00-5-8	5-8	22
GCSI00-10	10	22
GCSI00-12	12	25
GCSI00-13	13	26
GCSI11-6-12	6-12	28
GCSI11-13-14	13-14	29
GCSI11-15	15	30
GCSI11-16	16	31
GCSI11-17	17	32
GCSI11-19	19	35
GCSI44-6-14	6-14	32
